## Objective

A position allowing the further development of my website development skills utilizing open source architectures.

## Experience

### **2004-present – OnForce, Inc – Lexington, MA**

*Senior Developer*

- Utilizing open source technologies such as Object Oriented PHP, MySQL, Smarty Template Engine and Subversion to develop and maintain a platform for dispatching independent IT professionals anywhere in the United States and Canada
- Mentoring junior developers through implementing new features and maintaining existing features
- Working closely with product managers to develop feature specifications

### **2004-2005 – VoteMeOff.com – Plantation, FL**

*Co-owner / Website Developer*

- Developing a fast growing online community with Object Oriented PHP, MySQL, HTML, CSS and JavaScript
- Creating e-commerce solutions to handle customer payments through PayPal and other online merchants
- Providing web site and billing support to members

### **2002-2004 – Fluid Ideas, Inc / Whatthedilly, LLC – West Palm Beach, FL**

*Website Developer*

- Designing web site layouts for clients
- Developing backend applications to dynamically create database-driven web sites
- Creating and maintaining a large scale and high traffic online community, <http://www.thedilly.com/>
- Optimizing MySQL database structure to more efficiently handle heavy server loads

### **2001-2004 – WP Associates – Palm Beach Gardens, FL**

*Customer Service Representative / Website Developer*

- Assisting customers with billing questions and problems
- Investigating cases of fraudulent credit card activity
- Answering customer e-mails and telephone calls
- Creating and maintaining a large PHP/MySQL driven internal customer service web site

## Technical Skills

### **Programming Languages**
